everything from their professors to their campus social scene. Page 2 Page 3 When it comes to the SAT , can you separate fact from fiction? We debunk some of the most popular myths and misconceptions surrounding the SAT. MYTH #1: The SAT is a good indication of how I will do in college. The TRUTH: Your SAT scores reflect how good you are at taking the SAT (as well as how much time you spent preparing)—and that's about it. Nevertheless, admissions officers continue to place great weight on this test. So it's important to do well. When you pick your SAT test date, leave plenty of time for prep. MYTH #2: The SAT tests complex math concepts. The TRUTH: Here are a few things you won't need to know to answer SAT math questions: calculus, logarithms, matrices, and geometric proofs. Essentially, the SAT tests a whole lot of algebra, some arithmetic, statistics, and a bit of geometry. When we say a "bit," we mean it. There are only 6 geometry questions at most on the test. MYTH #3: You can't really improve your SAT Reading score. The TRUTH: You CAN improve your Reading score by expanding your vocabulary , including the multiple meanings of words, and by honing your critical reading skills. Critical reading on the SAT relies upon your understanding of the words in the questions but also your ability to read between the lines. So read books, newspapers and anything else you can get your hands on, and check out our SAT test prep options for additional skill-building tools. Video: Watch our SAT tips on TODAY MYTH #4: It's better to leave a question blank than to guess. The TRUTH: No way! There is no penalty for wrong answers on the SAT, so you shouldn't worry about guessing incorrectly. You receive 1 point for every correct answer; 0 points for every question you leave unanswered; and 0 points for every incorrect answer. If you can eliminate even one of the answer choices, you've just upped your shot at getting the answer right and gaining more points. Our Gold Standard SAT Prep Class Comprehensive test content and strategy review, in-person or online. TRY A FREE SAT CLASS For more than 35 years, students and families have trusted The Princeton Review to help them get into their dream schools. We help students succeed in high school and beyond by giving them resources for better grades, better test scores, and stronger college applications. Follow us on Twitter: @ThePrincetonRev. Practice for 15 minutes each day to get ready for the SAT. Registration for this test has closed With your College Board account, you can register online and check information about an existing registration. Sign In to My SAT Dashboard Sign in to Student Score Reports using your College Board account, where you can view all of your scores, along with a detailed score report. View Score Report SAT Practice on Khan Academy® is free, comprehensive, and available to all students. With personalized plans, practice tests and more, Khan Academy is good preparation for any test in the SAT Suite. Go to Khan Academy From free test prep to a checklist of what to bring on test day, College Board provides everything you need to prepare. Get Ready for Test Day See how content evolves throughout the tests in the SAT Suite. Learn More Learn how scores in the SAT Suite are structured, what they mean, and how to interpret benchmarks. Learn More View and analyze student scores for the entire SAT Suite. Sign In Search for K-12 school codes, also known as College Entrance Examination Board (CEEB) codes. These codes identify your institution to College Board. Find Your School Code We're so excited to give you access to this full-length printable SAT practice test. This practice test was put together by SAT prep expert Chris Lele, Magoosh's Principal Curriculum Manager. He and our experts have spent days crafting the 154 questions you'll find inside, which we then thoroughly student- and tutor-tested until the data told us that the test was more than up to snuff. Sign up below to access the free practice test PDF! So what will you see in the PDF? Well, 154 questions, to start. But beyond that, the test has... SAT Reading Test (65 Minutes, 52 Questions) SAT Writing and Language Test (35 Minutes, 44 Questions) SAT Math Section - No Calculator Test (25 Minutes, 20 Questions) SAT Math Section - Calculator Test (55 Minutes, 38 Questions) An answer key Information on grading your test Links to text and video explanations for every single question on each section of the test Where to Find Full-Length SAT Practice Tests (Even Official Ones) There are a few great places to look for full-length SAT practice tests! Here are our top recommendations: Khan Academy: Khan Academy has paired up with the College Board (they're the test creators) to offer free online practice SAT tests. There are four full exams on the Khan Academy site, which can also be found on the College Board site. After you've taken an exam or two, you can then sharpen your skills with practice in different areas with resources on Khan Academy's site and elsewhere. Prep books: But beware! While prep books can be great for lessons, they tend to be better for learning than for full-length practice tests. Yes, the College Board's book is awesome, but guess what? Those eight tests are the same eight tests you can find on their website, just printed and bound (they're transparent about this). There are a few great books out there and a few to avoid—you can check them out in Magoosh's post on the best SAT books and our review of the Princeton Review's practice tests!. Magoosh Prep: you can choose between a live cohort class with an instructor (which includes all our lessons and practice questions) or access to the self-study option by itself. Why do I need to take a full-length practice test? To maximize your score on the SAT, you'll need three things: Lessons Practice questions Practice tests And despite what a lot of students believe, those last two aren't interchangeable! Lessons are super valuable for reviewing content that you might not have seen for a while—or ever. Practice questions are great for making sure you've mastered (and continue to remember) the lesson content. Learn it, practice it...why the third step? Well, first of all, the official SAT won't have an "algebra" problem set or a "geometry" problem set. It'll have all kinds of question types mixed together within the three sections. That means that studying different content areas is a very different experience from test day, when you'll be in front of the exam for at least three hours (more if you're taking the essay). So you need to get ready with multiple practice tests! How to Take an SAT Practice Test Ready to mimic the official experience? Fantastic! All students can benefit from taking an SAT practice test—unless your test is the next morning, in which case, get your rest! For the rest of you, here's what to do: Set aside approximately four hours of uninterrupted time to take the practice test. Take the test in a quiet place where you won't be distracted. Mimic test day conditions by turning off your phone and leaving it in another room. Take the test in a quiet place where you won't be distracted. Try to take the entire practice test in one sitting. Eat a healthy, energizing snack before taking the practice test. Give yourself a brief, 10-minute break after the Reading test. Give yourself a brief, five-minute break after the Math (No Calculator) test. Use a countdown timer and remember to reset it for each test. Lucky for you, you don't have to remember half of these steps if you follow our simulated SAT practice test below, proctored by Magoosh curriculum manager Kat. All you'd need to do is print your test, find a quiet place, set aside a few hours, and press play to simulate a test-day experience in the comfort of your own home! What to Do After Practice Tests After the test, it is critical that you check your answers and make note of any questions you missed. In fact, it's a good idea to spend at least as much time examining your results as you did taking the test. Why? Well, did you get a question right because you knew the answer, or because you were guessing? Did you get a question wrong because you filled in the wrong bubble? (Practice tests help a lot with this latter problem, by the way!) Make sure to check the explanations for every question you get wrong, so that you don't repeat the same mistakes on test day. After you've examined your results, do some practice in your weak areas. Signing up for Magoosh SAT Prep is a great way to learn or relearn concepts you need help with and get access to additional practice problems. After working on your weak areas and brushing up on your strong areas, take another test and do the same process all over again! In the next section, we highlight some resources that will help you structure your SAT prep after taking your first practice test. Free Practice Materials While free practice resources for the SAT may not be as easy to find once you've finished the work available here and on the College Board site, don't worry! There are plenty of other online resources—both free and low-cost (including this blog!)—that will allow you to target your weaker areas and keep your strong areas strong. A Final Word You've made it this far. Congratulations! The SAT can have many implications for the college admissions process, which can intimidate students. Getting this far shows commitment—the same kind of commitment you need to master the SAT. So what are you waiting for? Dig out those #2 pencils, find yourself a quiet corner, and get on it! It's time to start boosting your test score. Rachel is a Magoosh Content Creator. She writes and updates content on our High School and GRE Blogs to ensure students are equipped with the best information during their test prep journey. As a test-prep instructor for more than five years in three different countries, Rachel has helped students around the world prepare for various standardized tests, including the SAT, ACT, TOEFL, GRE, and GMAT, and she is one of the authors of our Magoosh ACT Prep Book. Rachel has a Bachelor of Arts in Comparative Literature from Brown University, an MA in Cinematography from the Université de Paris VII, and a Ph.D. in Film Studies from University College London. For over a decade, Rachel has honed her craft as a fiction and memoir writer and public speaker. Her novel, THE BALLERINAS, is forthcoming in December 2021 from St. Martin's Press, while her memoir, GRADUATES IN WONDERLAND, co-written with Jessica Pan, was published in 2014 by Penguin Random House. Her work has appeared in over a dozen online and print publications, including Vanity Fair Hollywood. When she isn't strategically stringing words together at Magoosh, you can find Rachel riding horses or with her nose in a book. Join her on Twitter, Instagram, or Facebook!
